

Commercial Security Solutions

Leaders in Electronic Security

Commercial Security Solutions specialises in the supply, installation, servicing and maintenance in all facets of electronic security.

Directors, Richard Barnes & Robert Piperni, have over 25 years experience between them in the Security Industry.

Teamed with fully trained & experienced Technicians they form a complete Security Solutions business.

Commercial Security Solutions is preparing to lead the way in planning and implementing Access Control & Electronic Security Solutions that not only work, but make life a whole lot easier.

System Experience

Our previous experience includes many major commercial properties, local and state government departments, mining companies, hospitals, airports, correctional facilities and hotels.

- Access Control Systems
- CCTV Systems
- Intercom Systems
- Intruder Alarm Systems
- Hotel Locking
- X-Ray Screening Systems
- Photo Identification

Project Portfolio

Commercial Security Solutions has provided electronic security to many prestigious sites. Including:

- Santos House
- Riverside Building
- KPMG House
- Mobil Refinery
- DMG Radio

Service

At Commercial Security Solutions, our primary focus is on our clients.

We believe that the success of our business as a Security Integrator is due to our Unprecedented priority to prompt, efficient Customer Service.

Commercial Security Solutions offer a 24/7 service response to their clients.

All calls are attended to promptly, and quickly rectified, to minimise your downtime.

Service Agreements are offered to ensure the integrity of your system and to maintain the asset value of your property.

We provide Remote or On-site Access Card/Key programming.
